

Electrical/Mechanical Technician

MECCO Marking & Traceability, a manufacturer of marking equipment located in Cranberry Township, PA, is seeking an Electrical/Mechanical Technician.

We, at Mecco, are passionate about offering unparalleled service to our customers. We provide innovative designs for part identification & traceability applications. We serve the needs of the semiconductor, defense, medical, automotive, industrial and oil & gas industries by offering a full line of laser and dot peen marking solutions.

Position Summary: The qualified candidate will be responsible for the building and testing of electrical & mechanical subassemblies and automated marking workstations.

Specific duties and responsibilities:

- Work with engineering team on production builds including laser systems, dot-peen systems and integrated machines
- Wiring of electrical control boxes and panels
- Follow Test Procedures per manufacturing instructions.
- Assist with system repairs and customer service quotations
- Support customers & sales with technical questions, write technical documents and drawings, etc.
- Some travel required.

Requirements include:

- Strong electrical and mechanical experience is a must
- Must be able to read schematics
- Experience using volt meters, oscilloscopes and other electrical equipment
- PLC programming a plus
- Laser experience a plus
- Electronics degree and/or equivalent experience
- Must be highly motivated and possess good organizational and communication skills.

We offer a comprehensive benefit package. Please forward resume', including salary history, to:
