

SCRIBE 50X30 U STANDARD

INTEGRABLE · SCRIBE MARKING

 Scribe marking unit, silent and compact, with small dimensions, especially designed for integration in production lines.

ADVANTAGES

- Silent. Noise level 25% lower than European Directive requirements.
- Small size, making it the smallest and fastest scribe marker unit on the market.
- High marking speed, for all kinds of materials and hardnesses up to 62HRC.
- Top reliability, uninterrupted production.

- Reduced maintenance costs due to fast and easy access to all its components.
- Highly robust and long-lasting, thanks to the high quality of its components.
- Circular connector that facilitates assembly and disassembly.
- Bi-colour LED, visual information on the machine's status.
- Telescopic sheet protection system.

CHARACTERISTICS

- 50 by 30 mm marking area.
- Speed up to 10 characters/second.
- Mark depth up to 0.2 mm.
- Hardness of materials to mark up to 62HRC.
- 2-bar air pressure.
- R40C marking cylinder.
- Protection system that is easy to assemble and disassemble.
- 2.5-metre robotics wire.

Other lengths: 5, 10 and 15 metres.

Marking alphanumeric codes, logotypes, DATAMATRIX[™], QR codes, etc.

- Connection with COUTHsmartbox control for integration into production lines (see technical specifications for more information).
- PC edition programme:

COUTHvector, logotype creation.

COUTHedit, marking file creation.

COUTHmonitor, machine status monitoring.

• **COUTHlink.** Library to facilitate connectivity between COUTH smartbox and the production line PLC.
