

DOT 72 x 35U DEEP MARK

INTEGRABLE · DOT PEEN MARKING

 Dot peen marking unit for deep marking, especially designed to be integrated into the most demanding production lines - heavy duty industry and for marking pieces with later treatment (blasting, machining, grinding, painting, etc.)

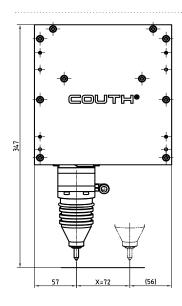

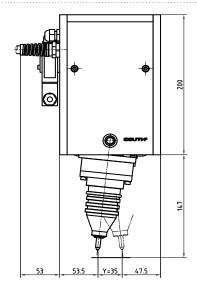

ADVANTAGES

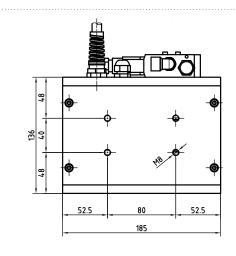

- Very deep mark, more than 0.5 mm, at optimum speed.
- Highly robust, long-lasting and resistant, especially designed for the most demanding industrial settings -

heavy duty industry.

- Maximum reliability, uninterrupted productions and reduced maintenance costs.
- Marking for all kinds of materials and hardnesses, up to 62HRC.
- Compact, simple to integrate, thanks to the small size.

Area	Dimensions (mm)			Weight
ΧxΥ	Width	Depth	Height	Kg
72 x 35	185	136	347	11

CHARACTERISTICS

- 72 x 35 mm marking area.
- Speed up to 4 characters/second (large characters)
- 6-bar air pressure.
- Hardness of materials to mark up to 62HRC.
- Wide range of characters, from 0.1 mm to complete area.
- Marking alphanumeric codes, logotypes, DATAMATRIX[™], QR codes, etc.
- N34 pneumatic head, special for deep marking, and optional N20 pneumatic head.
- Protection system option.
- 2.5-meter robotics cable, with customisation possibilities.
- Connection with COUTH control unit for integration into production lines (see technical file for more information).
- PC edition software.
